# THE HS WOOD FLOORING PROCESS

Our fully certified Oak is **harvested from sustainable forests** throughout Europe.

Our simple **4 step process** allows you to create your own bespoke wood floor.

---

Now you've chosen your options, using the latest state of the art machinery and highly experienced craftsmen, our colour technicians will create your wood floor here in the UK from responsibly sourced European logs. Ensuring the highest British quality and prompt delivery.

We also offer a bespoke colour matching service to create your perfect floor, so please feel free to provide us with a sample you would like us to match.

Start creating your bespoke floor by choosing your design from page 6 and 7.

Choose the dimensions available in your design from page 6.

Our range of designs are available in Prime and Rustic grades - shown on page 8 with the majority of items in stock and ready for finishing.

To complete your bespoke floor choose your texture and treatment from page 9 and your colour and finish from pages 10 - 13.

We use UV cured hardwax oil as our final protective layer. Available in Matt and Silk finishes.

## THE LAB

Our state of the art Lab houses only the best machinery to achieve our **colour matching service**. With an extensive range of unfinished stock of European Prime and Rustic Oak and 100% Fumed Oak we are able to offer you a prompt colour matching service and final production time.

The process of **sample matching** takes 10 working days as we use the same extensive weighted method of application to ensure precise and consistent application of the oils, stains and textures required.

# DESIGNS & DIMENSIONS

## Planks

15/4 x 140 / 180 / 220mm x *Random Lengths* 600-2200mm

# GRADING

Prime

<b>GENERAL</b>	Clear grade with mixture of natural grain.
<b>KNOTS</b>	Possible pin knots < 10mm.
<b>SAPWOOD</b>	Minimal edge and core sapwood.
<b>FILLED DEFECTS</b>	Not allowed.
<b>CRACKS</b>	Not allowed.
<b>COLOUR</b>	Natural variation.

Rustic

<b>GENERAL</b>	Rustic grade has a good mixture of natural grain and plentiful knots.
<b>KNOTS</b>	Healthy sound knots up to 70mm diameter and firmly filled knots up to 35mm.
<b>SAPWOOD</b>	Minimal edge and core sapwood.
<b>FILLED DEFECTS</b>	Allowed.
<b>FILLED TYPE</b>	Coloured filler to complement the wood.
<b>CRACKS</b>	Allowed up to 150mm long.
<b>COLOUR</b>	Mixture of natural grain and knots.

## TEXTURES & TREATMENTS

### Brushed

Removing the soft grain enhances the texture of the timber.  
Available in light, medium or heavy brushed.

### Aged & Tumbled

Each piece of flooring is tumbled to achieve an authentic aged look to the edges and surface of the timber.

### Bandsawn

Our bandsawn floors have traditional cut marks across the face of the floor and particularly suit retail and commercial projects.

### Fumed

100% Fumed - tones of deep dark brown/black.

**HS Wood Flooring** offer you endless combinations of surface treatments to create your bespoke wood floor.

Our **fumed and smoked** colours are achieved through a process which reacts with the natural tannins in the oak and although we use controlled processes, the final colours are dictated by nature and not by using pigmented stains.

*Please be aware that when you buy smoked or fumed oak flooring variation in colour is to be expected. This is the beauty of having these floors.*

### Light Smoked

Surface smoked – tones of light to medium brown.

### Medium Smoked

Surface smoked – tones of medium to dark brown.

### Dark Smoked

Surface smoked – tones of dark brown.

### UV Oil Finish

UV cured hardwax oil.  
Available in Matt and Silk finishes.

**CARE TIP** To help care for your new wood floor we recommend using **Osmo Wash and Care** for regular cleaning and **Osmo Maintenance Oil** to refresh the surface.

*We advise that you do not under any circumstance use a steam cleaner.*

**For more information please refer to our care and maintenance guide.**

# WOODBERN COLLECTION

## PLANK HERRINGBONE CHEVRON

**HS Wood Flooring** offer you the option of thickness, width and grade in your chosen finish.

Our core range of 20 finishes are a few of our favourites to whet your appetite; with endless options of textures, colours and finishes available.

Pages 10 to 13 show our core range colours in plank format. The majority of these finishes are available in the designs and dimensions shown on pages 6 & 7.

### Fumed Flooring

Our fumed and smoked colours are achieved through a process which reacts with the natural tannins in the oak. Although we use controlled processes when smoking **variation ◇ in colour will occur** and the final colours are dictated by nature and not by using pigmented stains.

The main difference between the two techniques; The **Smoking** process penetrates the veneer surface by 0.5 - 2mm in depth whilst the image shown here demonstrates that our **Fumed** oak penetrates the entire veneer layer.
